Robin does a great job bringing the reader right into the story and provides a winning combination of weaving the text through the story with good flow and quotes. It was neat reading about Jon's incredible journey of not only winning a medal in 2010 but how he has continued to persevere since that time. Great job!

Great job using multiple sources, that really adds to a story and is a big part of why you earned a second place finish! I also liked how Terry not only shared about Anthony Koop as a coach but also as a player and the impact he had. Great job on a story and a person who had a tremendous impact before his passing.
